
CEYHAN PROPANE DEHYDROGENATION - POLYPROPYLENE PRODUCTION PROJECT

STAKEHOLDER ENGAGEMENT ACTIVITIES

(ANNEX-D)

FEBRUARY 2023

ANKARA

ANNEX D-1

List of Stakeholders

Neighbouring Land Users

Neighbourhoods which can be influenced by the Project due to their locations around the Project area and at a wider distance (within a radius of approximately 15 km to the Project area) were considered and a total number of 24 neighbourhoods were identified belonging to three Districts namely Ceyhan, Yumurtalık and Erzin as follows: Kurtpınar, Kurtkulağı, Sarımazı, Sağırlar, Gölovası, Aydınlar, Hamzalı, Narlık, Selimiye, Turunçlu, Hamidiye, Çiftlikler, Erenler, Değirmendere, Narlıören, Çevretepe, Dokuztekne, Körkuyu, Yukarıburnaz, Aşağıburnaz, Sugözü, Soğukpınar, İmran and Dutlupınar.

Further details on the neighbouring settlements can be found in Table 1.

Table 1. Neighbouring Settlements and Land Users

Primary Social Area of Influence		
Province	District	Settlements
Adana	Ceyhan	<ul style="list-style-type: none"> Kurtpınarı Neighbourhood (including İncirli locality) Karatepe Sarımazı
	Yumurtalık	<ul style="list-style-type: none"> Gölovası
Provinces within the Secondary Social Area of Influence Zone		
<ul style="list-style-type: none"> Adana Hatay 		
Districts within the Secondary Social Area of Influence Zone		
<ul style="list-style-type: none"> Yumurtalık Ceyhan Erzin 		
Settlements within the Secondary Social Area of Influence Zone		
District	Settlement (Neighbourhood)	
Ceyhan	<ul style="list-style-type: none"> Kurtpınar (İncirli and Karatepe) Kurtkulağı Sarımazı Sağırlar Aydınlar Narlık Selimiye Hamidiye Çiftlikler 	<ul style="list-style-type: none"> Erenler Değirmendere Çevretepe Dokuztekne Körkuyu Soğukpınar İmran Dutlupınar
Yumurtalık	<ul style="list-style-type: none"> Gölovası Hamzalı Narlıören Sugözü 	
Erzin	<ul style="list-style-type: none"> Yukarıburna Aşağıburnaz Turunçlu 	

Table 2. Universities and Schools

Level	Organization	Relation to the Project
Universities	Çukurova University	Universities are key stakeholders.
	Fisheries Faculty, Çukurova University	
	METU Institute of Marine Sciences	
School	Toros Tarım Primary School	The school is in the vicinity of the Project area
	Turkish Petroleum Pipeline Company (BOTAŞ) Facility Primary school and kindergarten;	The school is in the vicinity of the Project area

Table 3. Governmental Organizations

Level	Organization	Relation to the Project
Global	ILO Turkey Office	ILO may have specific views about the operation of the Project.
National	Ministry of Industry and Technology (MoIT), General Directorate of Industry and Sustainability	These organizations have direct relation with the Project and may present specific view on the Project.
	MoIT, General Directorate of Industrial Zones	
	MoIT, General Directorate of Industrial Safety and Inspection	
	Ministry of Agriculture and Forestry (MoAF), General Directorate of State Hydraulics Works	MoAF may have specific views about the operation of the Project considering marine part and land use characteristics around the Project area.
	MoAF, General Directorate of Forestry	
	MoAF, General Directorate of Fisheries and Aquaculture	
	MoAF, General Directorate of Nature Conservation and National Parks	
	MoAF, General Directorate of Livestock	
	MoAF, General Directorate of Water Management	
	MoAF, General Directorate of Agriculture Operations	
	MoAF, Directorate of Mediterranean Fisheries Research, Production and Training Institute	
	Ministry of Environment, Urbanization and Climate Change (MoEUCC), General Directorate of EIA, Permit and Audit	MoEUCC has regulatory functions in relation to the Project such as environmental impact assessment permits and environmental permitting.
	MoEUCC, General Directorate of Environmental Management	
	MoEUCC, General Directorate of Spatial Planning	
	MoEUCC, General Directorate of Infrastructure and Urban Transformation Services	
	MoEUCC, General Directorate of Natural Assets Protection	
	Ministry of Energy and Natural Resources (MoENR), General Directorate of Energy Affairs	These organizations may have specific views about the Project considering its process in terms energy/utilities and site considering the neighbouring facilities/infrastructures.
	MoENR, Energy Efficiency and Environment Department	
	MoENR, General Directorate of Mining and Oil Affairs	
	Petroleum Pipeline Company (BOTAŞ)	
Turkish Petroleum (TPAO)		

Annex-D: Stakeholder Engagement Activities

Level	Organization	Relation to the Project
	Ministry of Labor and Social Services (MoFLSS), General Directorate of Labor	MoLSS may have specific views on labor and working conditions, and health and safety of the Project personnel.
	MoLSS, General Directorate of Occupational Health and Safety	
	MoLSS, Social Security Institution	
	Ministry of Disaster and Emergency Management	This organization may have specific view about the implementation of the Project.
	Turkish State Railways	This organization may have specific views about the railway development in the vicinity of the Project area.
	Ministry of Transport and Infrastructure (MoTI), General Directorate of Marine Trade	These organization may have specific views about the marine trade, shoreline structures and railway development in the vicinity of the Project area.
	MoTI, General Directorate of Shipyard and Shoreline Structures	
	MoTI, General Directorate of Railway Works	
	MoTI, General Directorate of Roadway Works	
	Ministry of Customs and Trade (MoCT), General Directorate of Customs	These organizations may have specific views about the Project since propane will be imported through sea shipment.
	MoCT, General Directorate of Domestic Trade	
	MoCT, General Directorate of Exports	
	MoCT, General Directorate of Strategical Development	
	MoCT, General Directorate of Trade Research	
	MoCT, General Directorate of Imports	
Regional	6th Regional Directorate of DSI (State Hydraulic Works)	This organization may have specific views about water courses running close to the Project area.
	7th Regional Directorate of Ministry of Agriculture and Forestry	This organization may have specific views on the land use characteristics in/out of the Project site and protected areas close to the Project area as well as the status of the trees in the Project area (if any).
	5th Regional Directorate of General Directorate of Highways	The organization may provide opinion regarding roads and highways related to Project area.
	Adana Regional Board Directorate of Cultural Assets Protection	This organization is an important stakeholder to identify and clarify the archaeological potential of the Project area.
	6th Regional Directorate of State Railways	This organization may have specific views about the railway development in the vicinity of the Project area.

Level	Organization	Relation to the Project
	5th Regional Directorate of Transport and Infrastructure	The organization may provide opinion regarding roads and highways related to Project area.
Provincial	The Governorship of Adana	The governorship, representing the national government, is the highest authority in the province.
	Adana Metropolitan Municipality	The metropolitan municipality and its relevant departments will have responsibilities in relation to the Project.
	Adana Metropolitan Municipality, Directorate of Environmental Protection and Control, Waste Management Branch	
	Adana Metropolitan Municipality, Directorate of Environmental Protection and Control, Marine and Inland Water Services Branch	
	Adana Metropolitan Municipality, Directorate of Planning	
	Adana Metropolitan Municipality, Directorate of Transportation, Transportation Planning Branch	
	Adana Cultural Assets and Tourism Branch	This organization may provide provincial-specific and/or site-specific views on the Project related with the cultural assets.
	Adana Provincial Directorate of Social Security Institution	This organization may provide provincial-specific and/or site-specific views on the Project.
	Adana Provincial Directorate of Environment, Urbanization and Climate Change (PDoEUCC)	PDoEUCC has regulatory functions related to the Project such as environmental impact assessment permits and environmental permitting.
	Adana Provincial Directorate of Agriculture and Forestry	This organization may provide provincial-specific and/or site-specific views on the Project.
	Adana Provincial Directorate of Industry and Technology	
	Adana Hacı Sabancı Organized Industrial Zone	
	TOROSLAR Electricity Distribution Company	
	Adana Provincial Directorate of Trade	
	Adana Provincial Directorate of Customs	
Adana Provincial Directorate of Communications with Non-Governmental		
Adana Water and Sewer Administration-ASKİ	This organization may provide an opinion related to water/wastewater infrastructure of the Project area.	
Adana Provincial Command of Gendarmerie	This organization has a function to manage and respond to emergency situations.	
Adana Disaster and Emergency Management Directorate		

Level	Organization	Relation to the Project
	Adana Provincial Directorate of Health	This organization may provide site-specific views on the Project.
	Coastal Zone Authority - Ceyhan	This organization may provide site-specific views on the Project.
District	The Local Governorship of Ceyhan, The Municipality of Ceyhan	The project area is located in Ceyhan district and the local governorship, the central municipality are stakeholders regarding obtaining relevant permits, approvals during planning, and construction and operation phases of the Project.
	The Local Governorship of İmamoğlu, The Municipality of İmamoğlu	
	The Local Governorship of Sarıçam, The Municipality of Sarıçam	
	The Local Governorship of Seyhan, The Municipality of Seyhan	
	The Local Governorship of Yumurtalık, The Municipality of Yumurtalık	
	The Local Governorship of Yüreğir, The Municipality of Yüreğir	
	The Local Governorship of Erzin, The Municipality of Erzin	
	Ceyhan District Directorate of Ministry of Food, Agriculture and Livestock	

Table 4. Non-Governmental Organizations

Level	Organization	Relation to the Project	
National	Çukurova Development Agency	Requesting opinion of these associations is important to understand their expectations.	
	Adana Chamber of Industry		
	Organized Industrial Zone Senior Organization		
	Adana Chamber of Commerce		
	Chamber of Environmental Engineers- Adana Branch	These chambers may provide provincial-specific and or site-specific views related to the Project.	
	Chamber of Forest Engineers - Eastern Mediterranean Branch		
	Chamber of City Planners - Adana Branch		
	Chamber of Civil Engineers - Adana Branch		
	Chamber of Architects - Adana Branch		
	Chamber of Geophysics Engineers - Adana Branch

Table 5. Nearby Receptors

Organization	Distance to the Project Area	Relation to the Project
BOTAŞ Regional Directorate of Petroleum Enterprises, (BIL- BTC) Ceyhan Marine Terminal	1.2 km	Their views on the Project are important due to the proximity to the Project area and related potential risks and impacts.
Botaş Port Authority	2.5 km	
ASCHEM Petrochemical Industry and Trade Inc.	3.4 km	
ISKEN-Sugözü Power Plant	9.7 km	
TOROS Agriculture	2.2 km	
Toros-Adana-Yumurtalık Free Zone Investor A.Ş. (TAYSEB)	3.4 km	
Akdeniz Shipyard	3.4 km	
LİKİT KİMYA- Adana Yumurtalık Terminal	3.7 km	
Erdemoğlu Holding - SASA Petrochemical Facility	27 km	
Neighbouring businesses to the Project area <ul style="list-style-type: none"> ○ Cengiz Restaurant, ○ Kilyos Esentepe Fish Restaurant 	1 km 1.5 km	
Waste reception facility to be established in Yumurtalık District by Gizem Denizcilik Akaryakıt Pazarlama Nakliyat Ticaret Ltd. Şti. (Gizem Denizcilik)	27 km	
Development of shipyard by TERSAN Tersanecilik Taşımacılık San. ve Tic. A.Ş.	27 km	
Platform and Pipeline Construction Project by Alkaport Ceyhan Liman İşletmeleri A.Ş.	38 km	
Ceyhan Organised Industrial Zone (OIZ) and Erzin OIZ	7.5 km	

Other nearby receptors of concern include:

- Fish restaurant and cottages located adjacent to the western border of the Project area in Incirli locality of Kurtpınar neighbourhood (Cengiz Restaurant and Esentepe Kilyos Fish Restaurant (It was closed in August 2022));
- Fishermen in Gölovası and Incirli: There are two fishing settlements in the Aol Incirli and Gölovası. Although Incirli is closer to the Project area, fishing activities are less intense here than in Gölovası. During the field studies, it was determined that there were 7 boats in Incirli. Fishing is more developed in Gölovası and primary source of income for more than 20 fishermen is fishing;
- Public housing of BOTAŞ Ceyhan Marine Oil Terminal and Toros Agri-Industry;
- Users of Forestation and Forest Areas and scattered vacant lands in the potential impact area of the Project.

Furthermore, after the realisation of the planned CPIR project the project area and relevant facilities will be added to the list of nearby receptors.

CEYHAN POLİPROPİLEN
ÜRETİM A.Ş

Date : 05.02.2020

No : CPU.0.20.0001

Subject : **Ceyhan Propane Dehydrogenation (PDH) and Poly-propylene Production (PP) Project Environmental and Social Impact Assessment Study (ESIA)**

SARIMAZI HEADMEN OFFICE
Sarımazı Mah. Orhan Gazi Blv. 43 D:3 Ceyhan, ADANA

Poly-propylene will be produced by our Company in Ceyhan PDH-PP facility to be established as part of Ceyhan Petrochemical Industrial Region located in Ceyhan district of Adana province. Ceyhan PDH-PP facility will be established by a partnership comprising of international partners and seeks international finance for the development of the Project. In order to meet the requirements of international financial institutions, an Environmental and Social Impact Assessment (ESIA) study is required to be prepared for the assessment of the environmental and social impacts of the Project. In this regard, HaskoningDHV TR Engineering Inc. (RHDHV-TR) has been commissioned as an independent consultant to undertake an ESIA study which started in December 2019. Additionally, there is an ongoing Environmental Impact Assessment (EIA) process which has been initiated by the Ceyhan PP A.Ş as required by the Environmental Impact Assessment Regulation. It is noteworthy to mention that the EIA and ESIA processes have been undertaken separately since ESIA is a voluntary study.

As part of the ESIA studies, engagement with the Project's stakeholders is an essential and fundamental requirement according to the international standards. Within this context, understanding the environmental and social topics that are important for or the jurisdiction area of your Headman office and are required to be considered within the scope of the ESIA studies, will contribute positively to the planning and construction phases of the Project. In order to provide information on the Project, a Project Information Document summarizing the general characteristics of the Project and its potential environmental and social impacts is presented in the Annex. In addition, leaflets and opinion forms are provided in the annexes to be shared with the interested public within your jurisdiction area. Based on this information, we would be pleased to get your thoughts on (i) opinions, concerns and/or expectations of the Public in your neighborhood, (ii) whether there are any vulnerable groups/people (e.g. women, poor, disabled and old people) that you think are required to be consulted within the scope of consultation activities.

Public Consultation Meeting Newspaper Advertisement and Photographs

CEYHAN PROPANE DEHYDROGENATION AND POLY-PROPYLENE PRODUCTION PROJECT

INVITATION FOR PUBLIC CONSULTATION MEETING

The proposed Ceyhan Propane Dehydrogenation (PDH) and Poly-propylene Production (PP) Project will be implemented by Ceyhan Polipropilen A.Ş. Within the scope of Environmental and Social Impact Assessment (ESIA) being conducted for the Project, a “Public Consultation Meeting”, with details given below, will be held to inform the public about the Project and to obtain their views and suggestions

Poly-propylene will be produced by our Company in Ceyhan PDH-PP facility to be established as part of Ceyhan Petrochemical Industrial Region located in Ceyhan district of Adana province. Ceyhan PDH-PP facility will be established by a partnership comprising of international partners and seeks international finance for the development of the Project. In order to meet the requirements of international financial institutions, an ESIA study is currently being conducted. Additionally, there is an ongoing Environmental Impact Assessment (EIA) process which has been initiated by the Ceyhan PP A.Ş as required by the Environmental Impact Assessment Regulation. It is noteworthy to mention that the EIA and ESIA processes have been undertaken separately since ESIA is a voluntary study.

Date : 06 March 2020
Time : 10:00
Location : Kurtkulağı Mahallesi 3713. Sokak Z/5 (Kiraathane) Ceyhan / ADANA

Respectfully announced to all public.

Stakeholder Meeting about Early Works

A stakeholder meeting was held in Kurtpınarı Neighborhood on 06.07.2022 to provide information about the early works. The meeting location was selected based on its proximity to the Project area as well as its suitability to accommodate the potential attendees. A total of 21 people attended the meeting. During the meeting, information was provided about the start dates of the construction activities, and also characteristics of the Project were explained. Stakeholders were informed about local employment opportunities. It was stated that the stakeholders will be informed about the blasting activities in advance and the houses will be

checked for physical integrity before the blasting starts. Information was provided about the RAP process, and the grievance mechanism was introduced.

During the meeting, stakeholders requested information on compensation for losses resulting from expropriation. The neighborhood headman asked for support to establish a company/cooperative so that the women could sell their local materials. After the stakeholder meeting, a one-on-one consultation meeting was held with Kurtpinarı neighborhood headman.

The notes taken at the stakeholder engagement meeting, the consultation report, photographs of stakeholder engagement and participants' list are given below, respectively.

Participants' List

The letter dated 15.05.2020 sent by the General Directorate of Environmental Impact Assessment, Permit and Inspection of the Ministry of Environment and Urbanisation stated

that the Public Participation Meeting will not be held regarding the Terminal Facility, and that the national EIA submitted should be disclosed. Based on this letter, no public participation meeting has been organised for the Terminal Facility planned to be built by Ceyhan Petrokimya Endüstri Bölgesi Yönetim A.Ş. Following the approval of the EIA Report, it was disclosed on the MoEUCC website (<http://eced.csb.gov.tr/jsp/ek1/29631>).
