ANNEX LIST

ANNEX O-1: Chance Find Report Form

ANNEX O-2: Chance Find Register

ANNEX O-3: Potential Chance Finds

ANNEX O-4: Contact Information

1. INTRODUCTION

Ceyhan Polipropilen Üretim A.Ş. (Ceyhan PP A.Ş. or Project Company) is responsible for the management and protection of cultural heritage resources within the Ceyhan PDH-PP Project (the Project) and associated facilities construction and impact area. Some cultural heritage assets have been encountered within the project construction and impact area during the ESIA studies. Suggestions to protect cultural heritage assets and sites encountered within the project impact area were described on the ESIA. However, there is still a possibility of encountering some unknown archaeological sites and cultural heritage assets as a Chance Find during project construction activities.

2. PURPOSE

The purpose of this document is to outline the procedure and respective responsibilities in relation to the management of Chance Finds during project construction works performed at terrestrial section for the Project and for the associated facility, which is has terrestrial (propane tank) and marine structure (jetty).

The procedure applies to all project activities including associated facilities within the project related impact areas (temporary project worksites outside the licence area such as energy transmission lines and access roads etc).

3. DEFINITIONS

Chance Find	Potential cultural heritage objects, features or sites that are identified outside of a formal site reconnaissance, normally as a result of construction monitoring.
Museum Directorates	Adana Museum
Regional Conservation Council	Adana Regional Council for the Conservation of Cultural Property
Project	Ceyhan PDH-PP Project
Shall and Must	Indicates mandatory requirements.
Should	Indicates that a provision is not mandatory but recommended as good practice.

4. ABBREVIATIONS

CFP	Chance Finds Procedure
CHMP	Cultural Heritage Management Plan
E&S	Environmental and Social
ESIA	Environmental and Social Impact Assessment

5. ROLES AND RESPONSIBILITIES

The Project Company is responsible for complying with the procedure for onsite activities during project construction activities. All relevant employees involved in construction works will be trained in relation the implementation of the procedure. Subcontractors will implement the Project Company’s Chance Find Procedure. The SPV managing the Terminal Facility, which is considered as associated facility, will develop and implement its own environmental and social management plans and procedures, including the Chance Find Procedure. However, similar procedure to the Project Company Chance Find Procedure might be applied by the SPV for the Terminal Facility. In general, there is no differentiation between chance find occurred at terrestrial section and marine environment.

Project Role	Responsibilities
Site Manager	<ul style="list-style-type: none"> • Ensure E&S issues are being adequately addressed on site by all related departments. • Support E&S site provides adequate resources on site to implement E&S monitoring and inspection activities.
E&S Manager	<ul style="list-style-type: none"> • Preparation or revision of E&S documentation plans and procedures as required. • Participation in the identification process of significant impacts for the project and assisting to develop relevant preventive and corrective actions. • Coordination of environmental and social information flow. • Ensuring that E&S mitigation measures are implemented and controlled during the project construction activities. • Developing and implementation of an environmental and social audit program and sharing lessons learned between all related departments and staff. • Manages site based environmental inspectors, community liaison officers and cultural heritage/archaeological monitoring expert/s. • Maintain effective communication with the construction and project management team. • Ensure the ESIA mitigation measures, through on-site daily inspection, advice and assistance to site construction and project management and personnel on all environmental, social and cultural heritage matters. • Day-to-day monitoring of construction activities as they related to E&S performance. • Raise NCR or Corrective Actions as required, and track closure. • Participate in audits relating to E&S matters. • Plan and Manage the environmental and social trainings for all project staff for Cultural Heritage Preservation and related procedures. • Daily reporting of E&S issues in construction activities to Site Management. • Weekly reporting of E&S issues in construction activities to Site Management. • Participate to meetings related to Cultural Heritage issues.
Cultural Heritage/Archaeological Monitoring Expert/s	<ul style="list-style-type: none"> • Provides advice in the form of a ‘preliminary assessment’ to the site and E&S managers on the significance and implications of new archaeological discoveries in the project activity areas. • Ensures Chance Find Procedure is followed, • Conducts and documents pre-construction surveys Records archaeological features discovered during pre-construction and ground disturbance activities. • Determines the needs for cultural heritage resources protection and implement mitigation measures. • Has the authority to stop ground disturbance activities to investigate potential chance finds. • Ensures that the relevant cultural heritage signs are displayed where and when required. • Implements chance find procedure and provides expertise during a chance find. • Delivers cultural heritage preservation trainings to all project staff.

Project Role	Responsibilities
	<ul style="list-style-type: none">• Issues non-compliances when required and ensures all corrective actions are completed in a timely manner• Provides daily field and monitoring reports to the E&S manager• Conforms to all requirements of the archaeological/cultural heritage assets recommendations in the ESIA

6. CHANCE FIND PROCESS

Cultural Heritage Monitoring Expert/s will be on site during all construction or ground disturbance activities to watch for the presence of cultural heritage resources. The following table outlines the step by step process to be followed upon a chance find discovery.

<p>STEP 1 – After the discovery of a chance find:</p> <ul style="list-style-type: none"> • All work must cease at the location where the discovery is made • A temporary buffer zone around the chance find will be put in place. The buffer zone should be of sufficient size to prevent damage to the chance find or suspected further area of interest. • The Cultural Heritage Monitoring Expert/s will contact the Contractor site management and museum archaeologist <u>immediately</u> • The Cultural Heritage Monitoring Expert/s will properly secure the chance find site: flagging, no-entry signs etc. • Protection of site: the chance find should not be moved, removed or further disturbed 	
<p>STEP 2 - Recording</p> <ul style="list-style-type: none"> • The Cultural Heritage Monitoring Expert/s will fill out Chance Find Form Part A and send a copy to E&S manager within 24 hours • The Cultural Heritage Monitoring Expert/s will retain a copy of Chance Find form for his/her record 	
<p>STEP 3 – Contact with local authority</p> <ul style="list-style-type: none"> • The Cultural Heritage Monitoring Expert/s will notify the relevant Museum Directorate for the chance find 	
<p>STEP 4 – Authority’s decision</p> <ul style="list-style-type: none"> • The relevant Museum archaeologist will determine the value of the chance find and corresponding actions. 	
<p>STEP 4 A – No significance to site</p> <ul style="list-style-type: none"> • The museum archaeologist declares that the site is considered to be of no significance • The Cultural Heritage Monitoring Expert/s informs relevant managers • The Cultural Heritage Monitoring Expert/s records the decision on Part B of Chance Find form and sends a copy to E&S manager within 24 hours • The Cultural Heritage Monitoring Expert/s retains a copy of Chance Find form for his/her record • No further actions required • This step closes out the chance find procedure • Construction activities may resume 	<p>STEP 4 B – Significance to site</p> <ul style="list-style-type: none"> • The museum archaeologist declares that the site is considered to be of significance • Museum directorate archaeologist decides on further actions and informs the Cultural Heritage Monitoring Expert/s The Cultural Heritage Monitoring Expert/s informs relevant managers. • Cultural Heritage Monitoring Expert/s records the decision on Part B of Chance Find form • Proceed to Step 5

STEP 5 – Site investigation		
<ul style="list-style-type: none"> Project personnel follows the relevant Archaeology Museum directorate archaeologist's instructions 		
<ul style="list-style-type: none"> After field investigation, Museum archaeologist declares <u>the site has minor significance</u> The Cultural Heritage Monitoring Expert/s inform their managers The Cultural Heritage Monitoring Expert/s records the decision on Chance Find Form Part C and sends a copy to E&S manager within 24 hours The Cultural Heritage Monitoring Expert/s retains a copy of Chance Find form for his/her records No further actions required This step closes out the chance find procedure Construction activities may resume 	<ul style="list-style-type: none"> After field investigation, Museum archaeologist declares <u>the site has moderate significance</u> Further studies such as test pit / salvage excavations or remote sensing investigation are to be completed Museum Directorate archaeologist provides instructions, and/or supervision for the studies The Cultural Heritage Monitoring Expert/s informs their managers Under the supervision of the museum archaeologist, project management provides a study team. The team will be composed of qualified archaeologists, other experts and workers. Once the excavation is completed, the study team provides a report to the Museum Directorate, The Museum Directorate reports the study outcomes to the relevant Regional Councils for the Conservation of Cultural Property. The relevant Regional Councils for the Conservation of Cultural Property officially confirms completion of recovery and informs the project management. The Cultural Heritage Monitoring Expert/s records the decision on Chance Find Form Part C and sends a copy to E&S manager within 24 hours The Cultural Heritage Monitoring Expert/s retains a copy of Chance Find form for his/her record No further actions required This step closes out the chance find procedure Construction activities may resume 	<ul style="list-style-type: none"> After field investigation, Museum archaeologist declares <u>the site has major significance</u> Salvage excavation is to be completed Site is to be treated according to Turkish archaeological regulations "Law on the Conservation of Cultural and Natural Property (2863) 21.07.1983 Museum Directorate archaeologist provides instructions, and/or supervision for test pit/salvage archaeological excavation The Cultural Heritage Monitoring Expert/s inform their managers Under the supervision of the Museum archaeologist, project management provides a salvage excavation team. The team will be composed of qualified archaeologist and workers. Once the excavation is completed, salvage excavation team provides a report to Museum Directorate The relevant Regional Councils for the Conservation of Cultural Property officially confirms completion of recovery and informs the project management. Site will be officially recorded and protected according to Turkish regulations The Cultural Heritage Monitoring Expert/s inform to the related managers. The Cultural Heritage Monitoring Expert/s records the decision on Chance Find Form Part C and sends a copy to E&S manager within 24 hours The Cultural Heritage Monitoring Expert/s retains a copy of Chance Find form for his/her record No further actions required This step closes out the chance find procedure Construction activities may resume or preventive further actions are needed

It is important to note that in the case of finding human remains, the site supervisor and the local authorities will be immediately notified. A suitability qualified person would attend along with the police authority to determine if the remains are due to a suspicious death, an authentic burial grave or of archaeological note.

7. MONITORING AND REPORTING

The Cultural Heritage Monitoring Expert/s will visually monitor all construction or other ground disturbance activities for evidence of presence of cultural heritage items.

Chance Finds will be recorded on the Chance Find Report form (ANNEX O- 1). All Chance Find Report forms will be kept in hard copy at the camp and will also be scanned and saved electronically after completion of each section of the form.

Chance Finds will be recorded in the Chance Find Register (ANNEX O- 2) which will be kept up to date by Cultural Heritage Monitoring Expert/s. It will be reviewed in regular E&S meetings (weekly or monthly).

Field work was carried out during the preparation phase of the Archaeological Heritage Baseline Report prepared for the Project, and the pictures of the potential find samples identified are given in ANNEX O- 3.

Adana Museum Directorate are responsible to provide experts for the sites as soon as possible after being informed and to officially identify the Chance Find (described in Annex O-1). Museum Directorate are responsible for the excavation of chance find areas. The Museum Directorate will follow the guidelines and decisions of the Regional Council for the Conservation of Cultural Property. The contact information of the responsible cultural heritage authorities in the province crossed by the Project is given in ANNEX O-4.
